

"Julia Karosi is a vocalist who bring her passion for music into her original compositions and lyrics. Her sound encompasses rich lows, pure high notes and a soulful timbre, while her spot-on intonation in both lyrics and improvisation makes her musical intentions perfectly clear. Her new CD Hidden Roots features her original songs, in Hungarian, English and with wordless vocals, each of which display her intelligence, musical sensitivity and ability to communicate with her listeners. A welcome addition to the world of vocal jazz and world music!"
